

Cut-out Paper Snowflake

Included Materials: square paper

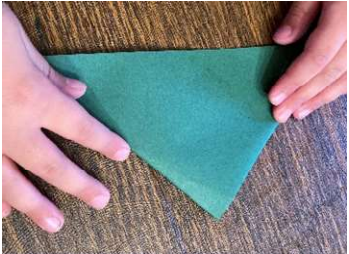

Other materials required: scissors, tape and/or ribbon/yarn/string, extra pieces of paper

Directions:

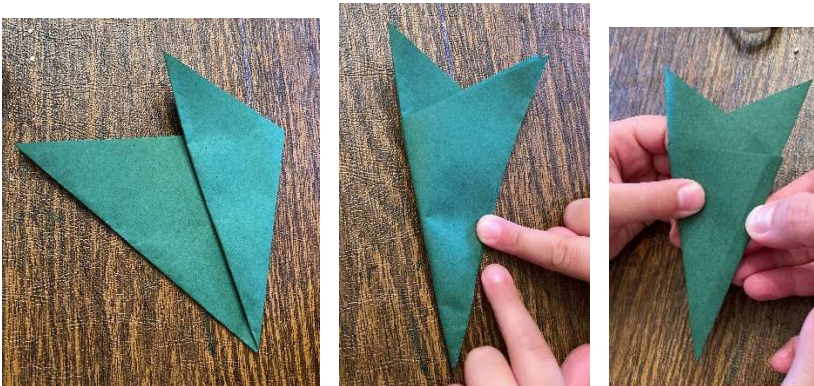

- 1) Fold square paper in half, into the shape of a triangle – be sure to line up the edges really well

- 2) Fold triangle in half – line edges up well

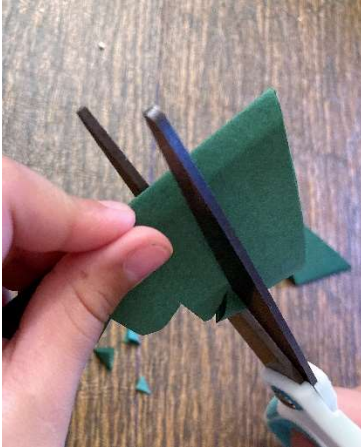

- 3) Fold triangle into thirds – you will end with two points sticking up off the main triangle

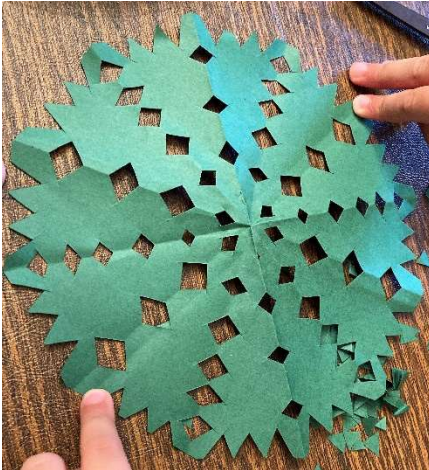

- 4) Cut off these extra points

- 5) Use scissors to cut into each side – be creative and cut different shapes along the sides – make sure you do not cut off an entire edge – the snowflake will not stay together

- 6) Gently open snowflake

- 7) Optional: place under a heavy book to flatten out
8) Optional: tape to the window or wall, or gently tie or tape a string to the snowflake to hang to display your creation!
