

# Create-Your-Own Picture Frame Directions

**Included Materials:** Rectangular wooden picture frame (dowel to stand it upright it taped on the back), glitter snowflake or triangle stickers, various snowflake stickers, jewels, yarn, pom-poms, paper, cut-out paper snowflakes

**Optional additional materials:** Paint, crayons, markers, ink pads, tape, glue, glitter, etc...

## Directions:

- 1) No real directions here! Be creative!
- 2) Try to start with a base color or design – use paint, ink pads, crayons, markers to either give your picture frame a base color or a scene.

Examples:

- 3) Once the base layer is dry, add fun details to make it your own!
- 4) You can wrap yarn around the sides – tape it to the back side to hold it in place. Don't cover the open spot where the picture belongs!

- 5) You can glue gems, pom-poms or paper snowflakes onto it. The stickers should stick pretty well, but you can glue them just in case.

- 6) You can do **WHATEVER YOU WANT!!!** Try to decide who you will give this to, or maybe you want to keep it for yourself. Then decide what you (or that person) like and make it personalized.
- 7) Have fun and be creative!!
